WEB 2.0 TOOLS SURVEY - ITALY

This questionnaire was prepared to evaluate the knowledge levels, achievements and general opinions of the individuals who participated in the training on the use of Web 2.0 tools in education. Measuring participants' experiences during the training process and their perceptions of Web 2.0 tools is valuable for contributing to the development of training programs. The survey results will be analyzed to improve the effectiveness of the training and optimize the potential use of digital tools in education. Your responses will be treated anonymously and we thank you for your sincere contribution.

Please rate each item on a scale of 1 to 5:

1: Strongly Disagree
2: Disagree
3: Undecided
4: Agree
5: Strongly Agree
